

REMARKS

This preliminary amendment:

- 1) cancels original PCT Claims 1-17;
- 2) adds Claims 18-33, based on the 16 "Amended Claims" from the prosecution of the corresponding PCT application;
- 3) adds Claims 34 and 35, which are identical to original PCT Claims 1 and 2; and
- 4) eliminates all multiple dependent claims.

Thus, this application now presents 18 total claims for examination in this U.S. national stage, to fully encompass the scope of the invention. Applicants respectfully request early and favorable consideration of this application.

Respectfully submitted,
